EXPERIENCE

Visual Designer, Amazon D1 Team
Seattle, WA
February 2017 - December 2017

As a production designer, I am responsible for creating graphics for a variety of different categories on the Amazon website. I work closely with business partners to design graphics that will live on the Amazon websites (US, Canada, and Mexico sites), associate websites, and in emails. My work must follow the standard Amazon styleguides as well as seasonal and categorical style guides. I work on multiple projects at one time, prioritizing each assignment's specific deadline.

Graphic Designer, Wilford Design
Tacoma, WA
July 2016 - January 2017

Wilford Design is a small web design company that serves a variety of clients. While working at Wildord Design, I created logos from start to finish as well as refreshing existing logos, designed responsive website mockups, edited photos, print collateral and updated exsisting packaging.

Graphic Designer, Extended Education Department
Western Washington University, Bellingham, WA
June 2015 - July 2016

My responsibilities included designing collateral for various programs within their brand guidelines and balancing multiple projects at one time. I created web graphics, printed materials, animated signs and various other mediums of marketing. I have also been a photographer for a variety of their programs.
